WILL DRILL FOR OIL AT ONCE

BADGER OIL CO. OF MUSKOGEE ENTERS FIELD—TAKES OVER LEASES OF ADA OIL AND GAS CO.

The directors of the Ada Oil and Gas Co. met Mr. R. C. Preston of the Badger Oil Co. at the Chamber of Commerce rooms Wednesday afternoon in the interest of the proposal by Mr. Preston that his company would try out the Ada field for oil and gas provided there should occur reasonable local encouragement and co-operation.

When the directors of the Ada Oil & Gas Co. had become conversant with Mr. Preston's proposition, a resolution was adopted, that for the consideration that Mr. Preston's company would develop the Ada field, that the Ada company would transfer him its present oil and gas leases and would contribute \$500 additional toward assisting in securing enough additional leases to afford reasonable protection to the wells proposed to be drilled by the Badger company.

Mr. Preston stated that amply equipped machinery would be shipped to Ada without delay with which to start the business of drilling.

Mr. Preston's business-like attitude in connection with his proposal to drill out the Ada district affords confidence that pretty shortly the work of intelligent drilling will be in progress.

Orel Busby was down from Konawa this afternoon. He has borne the reputation of being the youngest mayor in the state, but has become a private citizen again, having resigned his office in order that he may attend the state law school at Norman.

COTTON MEN DEMAND 15c FOR 1911 CROP

FOREIGN SYNDICATE AGREES TO ADVANCE FUNDS TO ENABLE FARMERS TO HOLD CROP.

Montgomery, Ala., Sept. 13.—Five hundred cotton growers and as many bankers, congressmen, United States senators and business men, representing every cotton growing state in America, declared in convention Wednesday that the farmers' cotton is worth 15 cents a pound and resolved that the farmer should hold his cotton for that price. The resolution followed a committee report that the crop in America would not exceed 12,500,000 bales.

The estimate was reached on figures presented to the committee by the call of states, by figures furnished by the national farmers' union from its recent convention at Shawnee, Okla., and by revised figures submitted Wednesday here by Charles S. Barrett, president of the farmers' union.

On the call of states the estimate arrived at reached only 11,217,000 bales. The estimate made by the farmers' union was 11,747,000 bales and revised estimate by President Barrett was 12,052,000 bales. An average was made of these three estimates and a percentage added for increased acreage, improved conditions, etc., and a general estimate of 12,500,000 bales.

Foreign Syndicate Offers \$75,000,000.
As the result of a conference in Montgomery yesterday afternoon, President C. S. Barrett of the Farmers' union announced today at the Cotton Growers' convention that a French-English syndicate has guaranteed any amount of money up to \$75,000,000 to finance the South's cotton crop. The deal was made with the personal representative of the syndicate. The money is to be loaned at 6 per cent and the cotton is to be put up as collateral. Details of the plan are to be perfected by a committee composed of one southern banker and two members of the Farmers' union.

"GRANDFATHER CLAUSE" AND ROAD DUTY

Sapulpa, Okla., Sept. 14.—The "Grandfather Clause" has been again held valid by the courts of Oklahoma and this time it had a local application thereby making an interesting case for home folks. And the story runs thusly: A few days ago the road overseer at Newby notified several of the colored men in his district to pay their road tax or work out their time on the public roads. This they promptly refused to do, saying they had been deprived of their right to vote through the workings of the grandfather clause, thereby

TOMORROW'S PROGRAM OF TRAP SHOOTING

Tomorrow afternoon at 4:15, the best thing in the way of trap shooting ever seen at Ada will take place at the normal campus, where the local club holds its meets. At the match tomorrow Konawa and Stonewall clubs will participate, and the noted crack shot, Kinsolving, will also be on hand to give an exhibition of fancy shooting.

The Ada club has been doing some fair shooting, and the members are improving with practice, and with the other two clubs and Kinsolving.

What Makes a Good Cigar?

There are three things that go to make a good cigar: Good tobaccos, perfectly blended, skilled labor and knowing how to combine the two. We don't buy cigars because we like the man who sells them. We know how they are made, what they are made of, which accounts for the popularity of the cigars we sell.

We especially recommend a new cigar we have just got in which is unquestionably the best value for 5c on the market today. The filler has a fine flavor and aroma and it burns evenly and is good down to the last puff. If you are a discriminating smoker, don't fail to try one.

SPECIAL LETTER FROM WASHINGTON

(By C. H. Tavenner.)
Washington, Sept. 12.—On the tenth day of May, 1902, the government filed a petition for an injunction against the beef trust in the federal court at Chicago. On July 5th, 1911, the packers after having obtained forty-two delays and postponements in the intervening nine years, again pleaded not guilty, and for the forty-third time their trial was postponed, this time until November 20th of this year.

The status of the beef trust prosecution, therefore, is exactly where it was the day the first papers were filed nearly a decade ago. The much-heralded prosecution of this gigantic trust—a prosecution which has been directed by one republican attorney general after another has amounted to nothing.

Every man, woman and child in the country is convinced that the trust operates in violation of the law, both statute and moral, and yet nothing has been accomplished in the alleged campaign to stop these violations except the disbursement of thousands of dollars in fees for special "trust busting" attorneys.

"Big Stick" in New Role.

What the people of Arizona really have to do to obtain statehood, is a story that the American people have never fully heard. Information has gone out over the wires from Washington that President Taft will permit Arizona to enter the union by simply striking the "recall of the judiciary" provision from its constitution.

But only when the following facts are considered can the full significance of the president's action be grasped:

First, that the people of Arizona by a vote of three to one declared in favor of the recall.

Second, that in order to obtain statehood the people of Arizona must go back to the polls and vote against a principle of government which they have already voted in favor of, and which they believe to be right.

By thus coercing the people to vote against a thing which their best judgment tells them to be wise, threatening to withhold from that people unless they vote as the chief executive dictates, rights to which they are justly entitled under the constitution, President Taft has committed himself to an action which is without precedent in the history of the American government.

The president has said to the people of Arizona, in effect: "No matter whether the majority believe that the recall of judges is wise or not; unless that majority goes to the polls and pretends that it is against the recall, I will deprive the people of Arizona of statehood. Yes, I will deprive the people of Arizona of statehood whether they are entitled to it

under the constitution or not, unless they vote not the way they may desire, but as I command them to vote."

While this method of forcing the people to vote against their will may be perfectly compatible to the mental workings of an executive with a "judicial temperament" isn't it after all making a farce out of representative government?

President Makes Another Mistake.

It is difficult to see how the presidents swing around the circle can end in anything but a sorry spectacle for himself.

If he tells the people the truth about how he vetoed the honest attempt of both branches of congress to reduce the high cost of living in this country; how, on taking office, he filled his cabinet with men connected with the law breaking trusts, and how he tried and almost succeeded in giving Alaska away to the land grabbers, he will discredit himself.

If Mr. Taft juggles the facts in the slightest degree, the Insurgents, "swinging along in his wake," will point out his misrepresentations with such truth and logic that the president will find himself more discredited than if he had remained at home.

The record of the Taft administration is one that cannot be debated with any credit to the president. For this Mr. Taft has only himself to blame, because he listened to the advice of men like Aldrich, Penrose, Guggenheim and Lodge, to the exclusion of all others.

Shoddy Woolens.

The wool trust's practice of lowering the quality of its products, while at the same time maintaining prices at the highest level ever known in this country, has drawn the fire of the medical journals all over the country. Through these journals the physicians of the nation are protesting against the lack of warm and enduring underwear, a fact to which they attribute the spread of many injurious diseases which affect women and children particularly. The medical journals are demanding a repeal of the high tariff—amounting to 100 percent on the commoner grades of cloth—recognizing in these duties the source of the evil of which they complain.

See Taft's Defeat.

President Taft has declined a chance to greatly cheapen the cost of living, and in so doing has defended a practice which he himself denounced as indefensible. The president's vetoes of the tariff bill will make it difficult for him to be renominated, and will practically insure his defeat if he is renominated.

This is an extract from the weekly market letter sent out by the Consolidated Stock Exchange firm of W. W. Erwin and Co. It shows that the New York business interests and Wall street have concluded that he cannot be re-elected, and are preparing to throw him over.

Suggestion to Senator Bristow.

In the September issue of the Columbian magazine Senator Bristow of Kansas has an article on "How the Interests Control America." While this is a good article, and one that everybody should read, a great many people would enjoy an article from Senator Bristow on "How I Blocked Direct Election of Senators By the People by Demanding the Insertion of an Amendment Which I Knew Would Kill the Whole Bill."

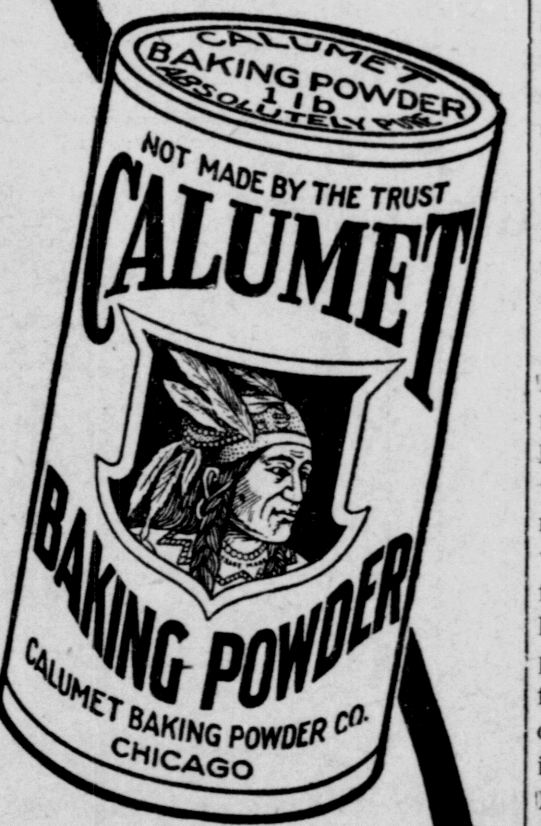

An Excuse Only.

When the Standpat Republicans gave as their excuse for opposing the Underwood-LaFollette revision downward bill, the fact that the tariff board had not reported, they were only bluffing. The very men who set up that excuse were the very ones who bitterly opposed the creation of such a board. To prove their inconsistency they will be the first ones to raise their voices against accepting the board's report if there is any recommendation for a reduced tariff.

Will War Against Mashers.

Spokane, Wash., Sept. 14.—Chief Doust of the Spokane police department, is ready and willing to pay a handsome salary to a young woman with a pretty face and engaging manners to act as official flirt. Escorts will be provided. He also had a job for a female impersonator, with a knock-out punch in each hand. The purpose of attaching these new officials to the department is to discourage the practice of men accosting women and girls in the streets. Numerous complaints have reached the department during the last week that women without escorts have been singled out by curb mashers and invited to ride in automobiles. Several arrests were made and in each instance it was found that the prisoners were recent arrivals from eastern cities. Chief Doust has determined to suppress this element and to secure quick action he has decided to engage an official flirt to rout the ogles and smirkers. The police say that Spokane has been singularly free from the "genus masher" until this summer, when scores flocked in from eastern and coast cities.

NOTICE TO THE PUBLIC.

For the convenience of the public, the Evening News will hereafter be on sale at the Post-office News stand for the small sum of 2c. The same rate will prevail at the News office. This is less than the actual cost of the paper, and it is impossible to make the price any lower. The publishers would like to give it away, but every paper costs money to print, and if it is worth reading at all, the News is certainly worth the small sum asked for it.

A poor devil in New York city was given a year in the pen and fined \$500 a few days ago for stealing two five-cent street car tickets. He should have waited until he could be made an officer of the corporation, then he could have stolen the entire works and got off fully as well.

There is some talk of Clarence Ousley, editor of the Fort Worth Record, as the successor of Joe Bailey in the senate. At all events if the office is to go as a reward for service to Bailey, Ousley is certainly entitled to it, for he has championed his cause early and late. Furthermore, whether Bailey's views happened to be good or bad, Ousley could be relied upon to fight for them in the Senate, and Bailey though absent, would have a strong proxy. However, Ousley being a newspaper man, should have due consideration for nothing is too good for an editor.

What has become of the great cotton premium scheme the Retailers worked out some weeks ago? Several hundred dollars was subscribed by the business men of Ada to push it but no steps have been taken to advertise it, and as a result few farmers will know anything about it. If anything is to be gained by the move, it is certainly high time something was done to get it before the people. Otherwise, the town will not gain a bale above what it would naturally get anyway.

The supreme court has just decided that the leg of a laboring man working for \$1.50 per day is worth only \$10,000. We wonder how many of those learned justices would part with one of their limbs for that sum? It strikes us that since they labor with their heads and do not need their legs very much, they could afford to lose one much better than the poor cuss who was torn up in an oil mill and was awarded \$25,000 damages by a jury. However, we may not know the law as well as the court.

We sometimes criticize the ancient Romans on account of their gladiatorial combats, and the Spaniards for their bull fights, but as a matter of fact, a little of the same spirit exists in nearly all of us. Somehow an exhibition of any kind wherein a human life is placed in jeopardy, appeals to the average person. He doesn't want to see anyone killed; oh, no, not that, but he always tries to make it a point to be on hand where if anything does happen, he will receive his share of the awful thrill. For instance, at an auto race there is always a scramble for a place near the dangerous turns where an accident is most likely to occur. An aviation meet without a few hard falls and bruises seldom pays its expenses. The people want excitement and some real thrills, and nothing short of that is going to entertain them much.

Foreign Corporation Can't Bring Suit.

Oklahoma City, Ok., Sept. 13.—The first case in which a foreign corporation was denied the right to maintain an action in an Oklahoma court because it had not paid a corporation license fee as assessed by the state law was reported to the corporation commission today.

A company of Oklahoma City brought suit in the county court to recover an alleged balance of \$200 due on an automobile. The case was thrown out of court, the court holding that the corporation is without standing in an Oklahoma court, as it has no domestic license. According to the commission the company is on its delinquent list as not having paid the license assessed against foreign corporations.

BRIDGE BONDS CARRY IN BRYAN COUNTY

Durant, Ok., Sept. 13.—Unofficial returns from the special election held yesterday indicate the proposition to issue \$130,000 county bridge bonds carried by a small majority. Approximately 1,150 votes were cast for the bond issue and 750 against it. With a 60 per cent requirement for its adoption a contest is probable either way the result may be declared. The vote was less than one-third normal. The proposition to issue \$10,000 city bridge bonds carried by a large majority.

Classified Advertising

Divides this Paper's
Readers Into Different Groups

One group will read all of the Situations Wanted Ads—because every person in that group is looking for a worker.

A second group of readers will read all of the Furnished Rooms To Let Ads—because every person in the group is looking for a furnished room.

A third group will read all of the Real Estate Ads—because every person in the group is a prospective buyer of real estate.

A fourth group will read all of the Business Opportunity Ads—because this group consists of people who MAKE THEIR MONEY WORK FOR THEM—and are ALWAYS looking for GOOD JOBS FOR DOLLARS.

Thus every classification draws to itself a group of readers influenced by self-interests—to everyone of whom that classification of ads. means PERSONAL OPPORTUNITIES.

Your classified ad. therefore, has an audience awaiting it—an audience of alert people, anxious to consider your offer or your want, and to do business with you if your proposition is plausible.

LITTLE DAUGHTER OF MR. AND MRS. S. A. HILL PASSES AWAY

About 7 o'clock yesterday afternoon, little Jeannette, the seven-year-old daughter of Sam A. Hill and wife died after a brief illness of fever. The funeral was set for 4 o'clock this afternoon.

The little one was taken ill Saturday but was apparently in no danger until Tuesday. An operation was deemed necessary and it was performed early yesterday afternoon. The child rallied and seemed greatly relieved, but it could not save the life which was so fast ebbing away.

This visitation of the death angel coming so unexpectedly has almost prostrated the parents. The many friends of the family have rendered all possible assistance that deep sympathy could suggest, but in a loss of this kind only the hope of a bright hereafter and the healing touch of time can lessen the weight of the burden of grief.

Our drug business has shown a steady increase for over four months, and we are especially gratified by the constant addition to our Prescription File. We appreciate your patronage. We use ONLY THE BEST. Let us have your prescription. 107-tf JONES DRUG CO.

W. M. Cummings was in town this morning en route home from Dallas. While at Dallas he purchased a good stock of racket goods and notions and will open a store at Sasakwa. Mr. Cummings is an all-around good fellow and deserves to succeed.

Have Your Eyes Tested

Parents Take Notice

As school time is here again, prepare your children so they may be able to get their lessons. Have their eyes tested for their optical defects, which causes many a child to be backward in getting their lessons. I will test their eyes and give you advice free, if they need glasses. You are assured of fair treatment. I don't care if they can't read or even do not know their letters. I can fit them just as well. I have the latest known instrument for that purpose at your hand and at your service. Bring or send to me and be satisfied.

You are invited to witness the exhibition of fancy shooting by Kinsolving tomorrow. 138-1td

Miss Hulett makes her first reappearance on the film screen tonight after her season's triumph in the great New York success, "The Blue Bird."—New York Herald. * * * * * You will see her tonight in Edison's famous comedy "Father's Dress Suit" at the Majestic.

When Gubin-Barack Co. advertises something special, the public knows there is no fake about it. This firm always makes good on anything advertised, and the specials advertised in this paper will be found exactly as promised.

Kinsolving, traveling for the manufacturers of Peters' shells, will give an exhibition of trap shooting tomorrow afternoon. Normal campus. 138-1td.

Cotton Receipts.

Cotton receipts for the season stood at 750 bales this afternoon at 3 o'clock. Yesterday 110 bales were weighed at the county yard, and about the same today.

The price is still stationary, standing as it has for several days past at 11.25 to 11.35. The farmers are still holding about half their crops for higher figures.

Kinsolving will shoot with the Ada Gun Club tomorrow. 138-1td.

BAPTIST CHURCH

Last evening we baptized twenty-seven making forty-eight additions to the church. We very much appreciate the co-operation given us in our meeting especially do we thank those who helped in the song services and those who worked and prayed for the success of the meeting. We wish every new member present Sunday morning that we may give the hand of fellowship at that service. C. STUBBLEFIELD.

Hot Weather Hurts the Skin.

Poisonous perspiration causes rashes, hives, blotches, pimples and prickly heat, often the beginning of serious skin troubles.

To wash away the poison entirely, apply a simple solution known as D. D. D. Prescription for Eczema. D. D. D. is generally sold in \$1.00 bottles but for 25c we can now give you enough to prove that the very first drops soothe and heal the inflamed skin as nothing else can.

We vouch for the wonderful properties of D. D. D. for we know that it brings instant relief for all kinds of skin trouble.

S.S.S. PERMANENTLY HEALS SORES AND ULCERS

No matter in what way an old sore or ulcer first commenced, whether from a wound, cut, or bruise, or from the ulceration of a wart, pimple or mole, or even if it came without apparent reason, the fact that it does not heal shows that bad blood is responsible for the place. While the circulation remains impure and polluted, the nerves and tissues of the flesh around the place are constantly being fed with unhealthy matter and the fibres are thus prevented from knitting together and healing. Purify the blood and the place **MUST** heal, its cause having been removed. S. S. S. cures old sores and chronic ulcers because it is the greatest of all blood purifiers. It removes from the circulation every taint or impurity, and so enriches the blood that it feeds and nourishes the tender, sensitive flesh, causes a knitting together of all fibrous tissue and thus heals the place naturally and permanently. Book on Sores and Ulcers and any medical advice desired sent free to all who write and request it. S. S. S. is sold at drug stores.

RESULT OF MAINE ELECTION IN DOUBT

Portland, Maine, Sept. 13.—So close was the vote in Monday's special election on the question of repeal of constitutional prohibition that even tonight, when most of the first unofficial returns had been revised by mail reports from town clerks, the result is still in doubt.

An error discovered in the report given officially by the clerk in the town of Limestone, contributed largely to the uncertainty as to the outcome of the election.

In reporting the vote, the clerk returned to the Associated Press over his signature:

"For repeal 12; against repeal 175; while to the secretary of state he reported just the reverse—for repeal, 175; against, 12."

Figures furnished by Secretary of State Davis from Augusta at midnight compiled from mail returns from all but thirteen cities and towns in the State, and with the missing thirteen supplied from press returns, show an apparent majority for repeal of 155 votes. Of the thirteen towns votes supplied by press returns four were received by mail from the clerks and nine are the early figures which it has not since been possible to verify. The figures of the total vote furnished from the office of the secretary of state, including the thirteen towns, supplied to Mr. Davis from press returns, are:

Figures Differ.

For repeal 60,525, against repeal 60,370.

Between the Associated Press returns, as revised almost completely by postal card reports from town and city clerks, and the figures of the secretary of state there is a marked discrepancy, the press returns indicating at a late hour tonight a majority of 347 against repeal.

The total vote as indicated by the Associated Press returns are as follows: For repeal, 60,241; against, 60,588.

Official Canvass.

In view of the closeness of the vote it was believed tonight that only the official canvass of the vote by the governor and council would definitely determine the issue.

The discrepancy in the Limestone returns is said to make a change of 346 votes in the total. Efforts were being made tonight to reach Limestone to learn which of the clerk's reports is correct. The town is located in the northernmost part of Aroostook county, a few miles from the New Brunswick boundary line, and ten miles from Fort Fairfield, which is the nearest town of any size.

PUBLIC LANDS CONVENTION TO MEET AT DENVER

Denver, Colo., Sept. 14.—An indication of the ideas of the advocates of state conventions of the public domain of the West is contained in a declaration of principles proposed here today, which will probably be presented for the consideration of the Public Lands convention to be held in Denver, September 28 to October 3 inclusive.

Beginning with the assertion that the Western states are capable of managing their own affairs, the declaration says that "if conceded we are capable of self-government, then we demand a recognition of the traditional principle that the federal government holds the public domain in trust only for its proper disposal to the individual or to the state."

A protest is made against the Western states paying tribute to the federal treasury by a tax upon the natural resources; and to the contention that the only practical means of control of these natural resources, other than farming lands, is through federal ownership, the answer is made that, "we point to some simple means or methods for their equitable disposal or whereby proper control would forever be vested in the states as follows:

"That all mineral lands or mineral rights, and all water power rights be entailed by the right of state regulation. In the case of forest lands, that those most valuable for stream flow protection, or as resort or recreation resources, be absolutely preserved; and that those with forest growth valuable only for timber, be subject to conditioned stumpage sales the care, administration and emoluments to be with the state; and those most valuable for farming to be deforested by the government to be turned over to the settler.

"With the exception of these changes the government should return to its long-time policy of liberal disposal to encourage home-building, use and development."

A HARMLESS WAY TO DARKEN THE HAIR

A Little Sage and Sulphur Makes
Gray Hair Vanish—A Remedy
for All Hair Troubles.

Who does not know the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical Company of New York put up an ideal remedy of this kind, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

If you have dandruff, or if your hair is thin or turning gray, get a bottle of this remedy from your druggist today, and see what it will do for you.

This preparation is offered to the public at fifty cents a bottle, and is recommended, and sold by all druggists.

The Price of a Leg \$10,000.

Oklahoma City, Okla., Sept. 14.—That the leg of a common laborer 20 years old, earning \$1.50 per day, can not be worth more than \$10,000 is the holding of the supreme court in the case of the Independent Cotton Oil company vs. John Beacham, decided Tuesday, in which it is held that a verdict for \$25,000 in a case of that sort was excessive and would be set aside unless a remittitur is filed for the amount in excess of \$10,000.

Beacham was injured in the company's plant at Lawton so that his leg had to be amputated below the knee. The injury occurred before statehood, but the suit was not begun until after statehood. The court holds that the provision of the constitution making contributory negligence a question for the jury and allowing a verdict by three-fourths of a jury in civil cases properly applied to this case. The judgment of the court is affirmed except as to the amount. The opinion is by Justice Kane.

Betting Favors Carl Morris.

New York, Sept. 14.—The Jim Flynn-Carl Morris contest on Friday night is stirring up about as much interest here as a contest for the heavy-weight championship honors and high prices are being paid for the choice seats in Madison Square Garden. While Carl Morris is regarded in some quarters as a "white hope," his manager says that should he win, he will not push him into meeting Johnson until the Oklahoma giant has learned more of the boxing game.

The erstwhile fireman is much aggrieved because the bettors are fancying Morris for the bout. He says he intends to show Morris is not in his class.

STATE SUES BELLAMY FOR ALLEGED SALARY

El Reno, Ok., Sept. 13.—Suit was filed in the district court here today by the State of Oklahoma, represented by Attorney General Charles West against George W. Bellamy, for more than three years Lieutenant Governor of the state, for the recovery of \$2,462.50. The state law fixes the salary of the lieutenant governor at \$1,000 per year. The state banking board, of which the lieutenant governor is ex-officio a member, made Mr. Bellamy's salary as such member \$1,500 per year and later raised it to \$2,100 per year. In all Mr. Bellamy was paid \$2,462.50, which the Attorney General now seeks to recover for the state.
